BRICKWORK INTEGRITY SOLUTIONS

WORKMANSHIP & BRICKWORK OBSERVATION

ILLUSTRATIVE TEMPLATE ONLY | No property has been inspected

PROJECT / PROPERTY: [To be entered]

DATE / REFERENCE: [To be entered]

INSTRUCTION / REASON FOR REVIEW

[Describe the concern and the decision the client needs to make.]

01 INFORMATION & INSPECTION BASIS

Information supplied:	[Drawings, specification, photographs, defect history]
Inspection type:	[Photo review / accessible on-site visual inspection]
Access and limits:	[What could and could not be seen or checked]

02 OBSERVATION LOG

REF	LOCATION / EVIDENCE	OBSERVATION / STATUS
01	[Location / photo reference]	[Not assessed - awaiting evidence]
02	[Location / photo reference]	[Not assessed - awaiting evidence]
03	[Location / photo reference]	[Not assessed - awaiting evidence]

03 TECHNICAL QUESTIONS / CLARIFICATIONS

[Record drawing-vs-built discrepancies, unknown cavity details, material or workmanship issues requiring further verification; do not assume a cause.]

04 PRACTICAL NEXT STEPS

A. [Additional photographs or site information required]

B. [Agree any measured / intrusive investigation separately]

C. [Refer design / structural / fire questions to responsible specialist]

05 SCOPE & LIMITATIONS

A practical brickwork observation record, subject to the agreed instruction. It is not structural engineering design, a chartered survey, certification or confirmation of concealed construction details. Specialist decisions remain with the appropriately qualified responsible professionals.

PROPOSED OUTPUT - NOT A COMPLETED COMMISSION

Final outputs, inspection extent and fee would be agreed for each enquiry.
